RUSHMORE WHEAT

Rushmore Wheat is early, beardless, has excellent standability and drouth resistance, has good milling baking qualities. Rushmore developed by S. D. Experiment Station, has performed well under a wide range of conditions in western S. D.

Per Bu.	\$2.90
20 bu. or more	\$2.85

SELKIRK WHEAT

Selkirk is a beardless, hard, red spring wheat of good milling quality. Selkirk is early, about two days later than Rushmore and appears to have a greater degree of stem rust resistance than other spring varieties.

Per Bu.	\$2.95
20 bu. or more	\$2.90

MIDA WHEAT

Bearded, Spring Wheat variety with high yielding ability. Heavy test weight, but will shatter more readily than most Spring varieties. Susceptible to rust.

Per Bu.	\$2.90
20 bu. or more	\$2.85

LIBERTY BARLEY (Certified)

This new variety was developed and released by the S. D. Experiment Station. This barley has smooth awns, stiff straw, and high yielding ability. It is resistant to stem rust and mildew. The heat tolerance of this variety has been excellent.

Per Bu.	\$2.10
20 bu. or more	\$2.00

SPARTAN BARLEY

A two—rowed, smooth—awned stiff strawed barley. Very early with a high test weight and high protein.

Per Bu.	\$1.55
20 bu. or more	\$1.50

PLAINS BARLEY

Plains Barley is an early six-rowed smooth-awned, stiff strawed variety released by the S. D. Experiment Station. It is well suited to the Plains conditions of central and western S. D. Resistant to stem rust but susceptible to loose smut.

Per Bu.	\$1.55
20 bu. or more	\$1.50

FIELD CROP SEEDS

OATS

CHEROKEE OATS

This variety has unusually high test weight and is white with a reddish cast. Straw strength is good, and heat resistance excellent. One of the most popular varieties in western South Dakota.

Per Bu.	\$1.10
21 bu. or more	\$1.05

BRUNKER OATS

A very early reddish tall oat, susceptible to rust but an excellent dryland oat under drouth conditions for Western South Dakota.

Per Bu.	\$1.05
21 bu. or more	\$1.00

RANSOM OATS

A new oat variety, released by N. D. Ransom is early, has a medium stiff straw and is resistant to 7, 8 and 7A races of stem rust. The yields of Ransom have been good. This oat is recommended for Western South Dakota where an early oat is needed.

Per Bu.	\$1.50
21 bu. or more	\$1.45

JAMES HULLESS OATS

This stiff-strawed, mid early variety of hulless oats is resistant to smut and stem rust. It has a high protein content and makes excellent poultry feed.

100 lbs.	\$6.50
----------	--------

SPELTZ

A dryland grain that withstands more drought, unfavorable soil and weather conditions than most grains. Short-season, early maturing crop.

Per Bu.	\$1.50
20 bu. or more	\$1.45

BALBOA FALL RYE

Per Bu.	\$1.45
20 bu. or more	at \$1.40

TETRA PETKUS FALL RYE

Lacks winter hardiness but makes quick and vigorous growth. Excellent for pasture.

Per Bu.	\$1.70
20 bu. or more	\$1.65

MARINE FLAX

Marine make vigorous early growth, is fairly short and stands well even after maturity. It is resistant to all forms of flax rust at present and is adapted to areas where an early flax is needed.

Per Bu.	\$5.50
---------	--------

REDWOOD FLAX

Redwood is a brown-seeded, late to mid-season flax of high yielding capacity. Resistant to races of flax rust. Must be planted early for maximum yields.

Per Bu.	\$4.75
---------	--------

DWARF ESSEX RAPE

Biennial variety. Generally ready to be grazed 10-12 weeks after seeding.

100 lbs.	\$16.50
----------	---------

CERESAN M

TREAT ALL GRAIN WITH CERESAN M! It controls SMUT and OTHER SEED-BORN DISEASES ON WHEAT, OATS, BARLEY, FLAX and SORGHUM.

14 oz.	\$1.60	3 lbs.	\$4.45
		40 lbs.	\$44.95

CYCLONE SEED SOWER

Distributes accurately all smooth grass seed and grains; pellet and granular fertilizer.

GRASSES and CLOVER

"GO to GRASS"

"Grasses and Legumes, The Backbone Of Agriculture"

All Grass Seed Bagged in 50-lb. Bags.

INTERMEDIATE WHEATGRASS

(Ree Wheatgrass)

A perennial grass which produces abundant creeping rootstalks and a dense sod. The stems as compared with brome grass are medium fine to large, coarse and leafy. Established plants start growth early in Spring and continue growth into late Fall.

Top Grade 100 lbs. \$38.00

WESTERN WHEATGRASS

A native perennial grass that is palatable, high in protein. Makes early Spring growth. One of the best for this part of the country.

Top Grade 100 lbs. \$75.00

R. B. PASTURE MIX

Registered Brands Pasture Mix is a selected blend of high quality grasses and legumes that will give maximum production in the terms of pounds of beef per acre.

20% Brome Grass
5% Western Wheatgrass
10% Slender Wheatgrass
10% Intermediate Wheatgrass
20% Crested Wheatgrass
20% Rye Grass
10% Sweet Clover
5% Rhizoma Alfalfa

100 lbs. \$23.50

BROME GRASS

A hardy, smooth, erect, drought resistant perennial grass that forms an excellent sod for pastures. It is resistant to extreme cold and heat. Brome begins growth in early Spring, grows throughout the summer and continues to grow until late fall.

100 lbs.
Northern (Top Grade) \$18.50
Lincoln (Top Grade) \$19.00

SLENDER WHEATGRASS

Early maturing, leafy, rapid developing grass. Slender Wheatgrass is a perennial that is well adapted to the Dakotas, Montana, and Wyoming.

Top Grade 100 lbs. \$29.00

WEST RIVER PASTURE SEED

Grass - legume mixture better because:

1. Greater Forage Production
 2. Longer Lasting
 3. Higher in Protein Than Grass Alone
 4. Grass With Legumes Reduces Chance of Bloat
 5. Improves Soil Structure for Erosion Control
 6. A mixture Provides More Assurance of Getting at Stand
- 35% Nordan Crested Wheatgrass
30% Intermediate Wheatgrass
25% Yellow Blossom Sweet Clover
10% Rhizoma Alfalfa

100 lbs. \$28.50

PLANT McMAHON REGISTERED BRANDS SEEDS

Registered Brands GRASSES

STANDARD CRESTED WHEATGRASS

A perennial bunch grass that is hardy and drought resistant. Very early in spring growth. Becomes dormant during hot, dry spells and resumes growth with cooler weather and more favorable moisture conditions.

Top Grade 100 lbs. \$17.50

FAIRWAY CRESTED WHEATGRASS

Similar to Standard Crested Wheatgrass. Does not grow as tall but is more leafy and finer stemmed.

Top Grade 100 lbs. \$18.50

TALL WHEATGRASS

A new tall bunch-type grass, which shows tolerance to very wet alkaline conditions. Drought resistant, valuable for pasture and hay.

Top Grade 100 lbs. \$29.50

NEW NORDAN CRESTED WHEATGRASS

A new variety of standard Crested Wheatgrass developed in North Dakota. The yield of this variety is superior to other strains and it has much better seedling vigor and first year growth.

Top Grade 100 lbs. \$27.50

TIMOTHY

One of the most universally known grasses. Timothy is especially adapted to cool, moist soils.

Top Grade 100 lbs. \$18.50

TIMOTHY & ALSIKE

A mixture containing 80% Timothy and 20% Alsike Clover. Makes an excellent pasture and good quality hay. Especially adapted to the Black Hills Area.

Top Grade 100 lbs. \$23.00

RYE GRASS (Domestic)

A very quick growing annual grass that produces a large amount of nutritious foliage.

Top Grade 100 lbs. \$13.00

CLOVER

WHITE BLOSSOM SWEET CLOVER

The standard sweet clover of the country, Biennial, produces abundant hay and pasture. Grows 4 to 6 ft. tall.

Top Grade 100 lbs. \$14.50

YELLOW BLOSSOM SWEET CLOVER

Biennial. Not as tall as white but about 2 weeks earlier. Drought resistant. Makes good hay, pasture, forage.

Top Grade 100 lbs. \$13.50

MEDIUM RED CLOVER

Makes good hay and pasture. Adapted for planting with numerous grasses.

Top Grade 100 lbs. \$45.00

ALSIKE CLOVER

Valuable forage crop sown alone or with Timothy. Good for high altitudes.

Top Grade 100 lbs. \$35.50

Broken Bags add 5% to 100-lb. Price.

Page 5

REGISTERED BRANDS

Pictured above are some alfalfa seed growers unloading their seed at the McMahon Company warehouse in Rapid City, South Dakota.

Prices include bags and are subject to market changes. All seeds are tested and tagged in compliance with State Seed Laws.

DAKOTA ECONOMY BRAND

Good quality seed, but off-color. Noxious weed free.

Purity 98.00%—Germination 84% or better	100 lbs.	\$29.50
---	----------	---------

COSSACK

Very vigorous growing variety, second only to Ladak in hay production. Produces fine stemmed hay and is particularly well adapted to those areas in S. D. where two or three cuttings of hay are obtained. Most popular alfalfa in Western South Dakota.

Dakota Grown Purity 98 Germination 85	100 lbs.	\$32.50
Dakota Grown (TOP GRADE)	100 lbs.	\$34.50

RANGER

A combination of several superior strains. Wilt resistant, winter hardy, adapted to our western climatic conditions.

Ranger (TOP GRADE)	100 lbs.	\$35.50
--------------------	----------	---------

LADAK

Introduced in 1910 from Northern India where it developed under low winter temperatures. Ranks first in hay yield and first in cold and drought resistance. Also resistant to bacterial wilt.

Dakota Grown (TOP GRADE)	100 lbs.	\$38.50
--------------------------	----------	---------

RB Seeds are Recleaned and Tagged with Purity and Germination Test.

ALFALFA SEED

VERNAL

This is a synthetic variety produced by the Wisconsin Experiment Station from crosses involving cold and wilt resistant selections out of standard varieties. Vernal is winter hardy and resistant to bacterial wilt. It has been superior to Ranger in hay yield, also more persistent when grown with grass under grazing.

100 lbs. \$48.50

McMAHON'S DAKOTA 12 BRAND ALFALFA SEED

McMAHON'S DAKOTA 12 is not a variety, but a blend of premium quality hardy, Northern Alfalfa grown in this area, with high purity and germination. McMAHON'S DAKOTA 12 is winter hardy, more resistant to drought, an excellent forage producer which will produce more hay year after year.

Dakota 12 Brand (top brand) 100 lbs. \$35.00

GRIMM

One of the best of the variegated group is Grimm Alfalfa, which was introduced in Minnesota in 1857. Unusual winter-hardiness.

Dakota Grimm (top brand) 100 lbs. \$34.00

RHIZOMA

A variegated vigorous variety from British Columbia. Winter hardy, it is used more for grazing since the crown is below the surface, the plant is less likely to be injured. Excellent Alfalfa to plant with grass for pasture.

Dakota Grown (top grade) 100 lbs. \$39.00

TOP GRADE SEED — HIGHEST QUALITY AVAILABLE

INOCULATE ALL LEGUMES WITH NITRAGIN

All legumes should be treated with Nitragin Inoculant to insure quicker germination and better stands. The use of Nitragin also builds up fertility in your soil.

1958 AGRICULTURAL CONSERVATION PROGRAM HIGHLIGHTS

The Federal cost-share for rotation seeding will be \$3.00 per acre for the seed, land preparation and seeding. Federal Cost-sharing will be made on the requested acreage less 10% which will be considered normal acreage. A minimum of 5 pounds of seed per acre must be sown.

In order to receive payment on any Agricultural Conservation practice, cost-sharing must be requested before practice is started.

See Your Local County ASC Office For Full Details

PLANT McMAHON'S REGISTERED BRANDS SEED

Get more from every acre... grow **KINGSCROST**

KF Semi-dent. Well adapted to short season areas. Falconer maturity with taller plants, higher ears, stronger stalks and deeper kernels. Ideal for pasturing, silage or picking.

For 80 day areas.

KC3 Maturity, plant and ear height similar to KE3, but ear has more diameter. Husks open early for fast fall drying. High yielding ability.

For 80 day areas.

KE2 Very popular early-maturing grain producer. Noted for clean picking. Slender cobs carry deep kernels. Exceeds estimated yields when shelled. 3 to 5 days later than KE3.

For 85 day areas.

KE1 Combines earliness with large plant size. Wide, dark leaves. Vigorous plants. Dries fast, picks clean. Gives high shelling percent. About 3 to 5 days later than KE2.

For 90 day areas.

KC6 NEW. Maturity similar to KE1 with stronger roots and stalks. Ear is higher with more diameter, and dries fast. Especially fast spring growth.

For 90 day areas.

KA3 NEW. High yielder. Large very fast drying ears. Strong stalks and roots. Excellent companion hybrid with KA4.

For 93 day areas.

KA4 Tall erect plants with ears carried high. Produces long, slender ears and is a heavy yielder. Strong stalks are resistant to summer storms. About 4 days later than KE1.

For 95 day areas.

— All Kingscrost Regular Flats \$12.80 per bushel —

SPECIAL NORTHRUP KING SILAGE CORNS

SILOBRED BRAND

A blend of different maturities especially for use as ensilage or fodder. The blending gives you a high grain content from the early maturities, a heavy tonnage of leafy, succulent fodder from the later maturities. It's available in 3 maturity blends all graded for

drill planting: Early, Medium and Late—in small flat grade.

\$7.80 per bu.

WHEATLAND BRAND

Here's a blend made up of early maturing semi-dent and full-dent corn. It's well adapted to short season areas. You'll find it gives a much better crop than open-pollinated corn, with more mature ears and better quality fodder. Ideal for silage or pasturing-off.

In some cases, growers also use it for grain.

\$7.80 per bu.

NEW SORHUM HYBRIDS from NORTHRUP KING

NK145 Probably the earliest forage hybrid available. Very leafy and fine stemmed. High yielder for such an early hybrid even though it's shorter than most open-pollinated varieties.

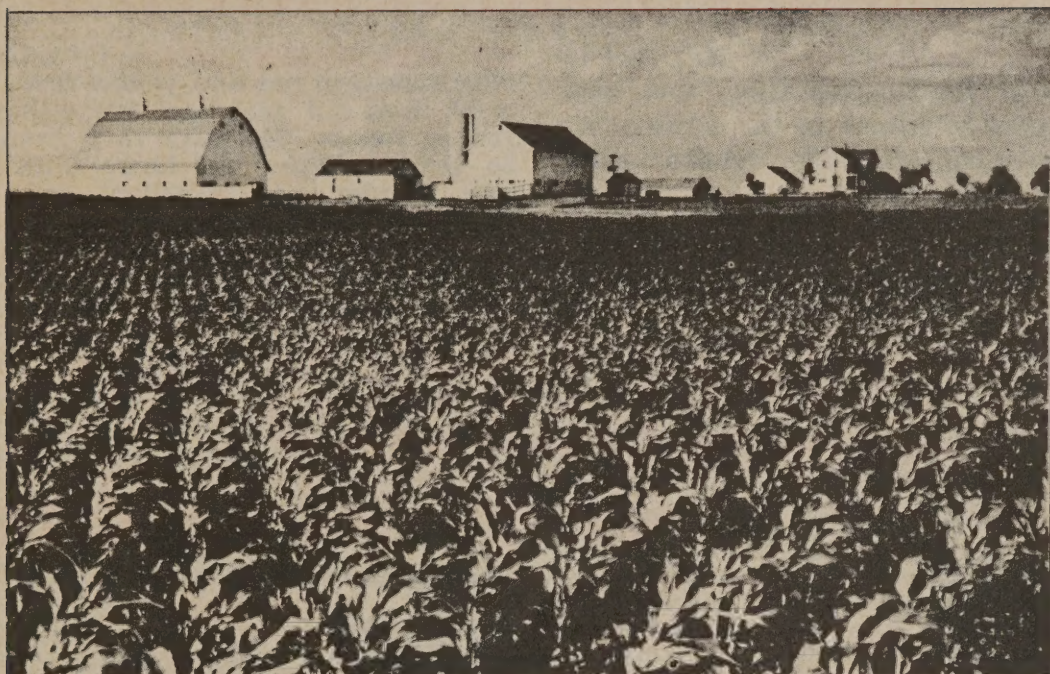

50 lb. Bag \$10.50

RS501 Maturity similar to Northrup & Reliance. About 36 to 38 inches high. Loose, open heads that dry well. A high yielder in most trials, often out-yielding later hybrids.

50 lb. Bag \$10.50

McMahon Company, Inc., Rapid City, South Dakota

SEED CORN

OPEN POLLINATED

ALL OPEN POLLINATED VARIETIES ARE TREATED WITH ARASAN TO REDUCE SEED DECAY, ROOT ROT AND OTHER DISEASE ORGANISMS

BLACK HILLS SPECIAL YELLOW DENT — A somewhat larger corn than Minnesota 13. Heavy yielder.

2 lb. Arasan \$3.20

PLANT McMAHON'S REGISTERED BRANDS SEED

Registered Brands HYBRIDS

RB WISCONSIN 355A — Has wide range of SOIL adaptation, and very good cold tolerance in the spring. An improvement on W355. Husks easily. 93 day maturity.

Per Bu.	\$8.50
5 bu. or more	\$8.00

RB WISCONSIN 335A — Cross of Northwestern red and yellow dent. The seed used for planting can either be red or yellow. The ears vary from red to yellow. Stalks are large, ears long and slender. An excellent corn for Northern areas. 90 days.

Per Bu.	\$8.50
5 bu. or more	\$8.00

Jacques

PROVEN
HYBRIDS

FINEST IN THE FIELD

HYBRID SEED CORN AND SORGHUM

**JACQUES EARLY
EAR CORN VARIETIES
RECOMMENDED FOR
THIS AREA**

**Top Quality Northern
Grown Seed Corn**

802J — Developed for the northern most areas of corn production. Truly early dent type. Sturdy stalks of medium height. Easy to harvest by hand or machine. 80 days.

Med. Flats — \$12.75 per bu.

853J — This 85 day corn has done unusually well in the state yield trials in this area. Outstanding yielder for such an early corn. Very deep kernels. Easy husking.

Med. Flats — \$12.75 per bu.

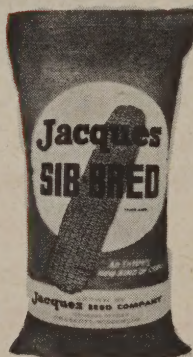

957JA — Medium height. Better cold tolerance. Long slender ears with deep kernels and a small cob. Yields well on all soils, good drouth resistance. 90 days.

Med. Flats — \$12.75 per bu.

1053JA — Rather short plants. Wide, dark green leaves. Heavy, thick ears with deep kernels. A good picker. 95 days.

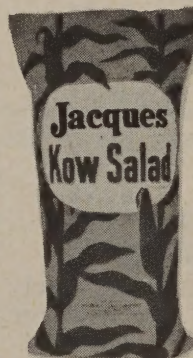

Med. Flats — \$12.75 per bu.

For Ear Corn or Silage at a Low Price

SIB-BRED is produced by a new method of breeding. SIB-BRED has the strong stalks and root system of good hybrids. A good yielder of both grain and forage, but costs little more than open pollinated varieties. A real improvement over open pollinated corn. 80-85 day.

Choice Flats —
\$7.75 per bu.

KOW SALAD. Carefully selected, extra leafy, Jacques hybrids of varying maturities are carefully blended in Kow Salad to give you a crop that will remain in prime condition in the Fall. Kow Salad gives quality silage with real feed value. You will like Kow Salad, the perfect silo corn.

Flats — \$9.85 per bu.

J 31 HYBRID GRAIN SORGHUM. Good resistance to lodging and uniform height. Fast starting in spring with good cold tolerance. Excellent quality light red grain threshes clean. Is as early as any competitive hybrid and much earlier than most. Will substantially out-yield Sorghum or Reliance and about the same maturity.

Per Bu. — \$10.00
Per ½ Bu. — \$5.50

McMahon Company, Inc., Rapid City, South Dakota

R. B. Sorghums, Sudans, Millets Soybeans, Vetch

CERTIFIED RANCHER SORGHUM

The lowest hydrocyanic acid Dakota Amber forage Sorghum in production. Developed by the S. D. Experiment Station. It is juicy, sweet and a high yielder of both forage and grain.

100 lbs. \$8.50
Uncertified Rancher, 100 lbs. \$7.50

HONEY DRIP CANE

Large, leafy, sweet variety. An excellent forage producer.

100 lbs. \$8.50

SUMAC CANE

Very leafy and sweet. Has high feed value. Good forage crop.

100 lbs. \$8.50

WACONIA CANE

A selection of Rox Orange. A good forage producer. Somewhat later than Rancher Sorghum.

100 lbs. \$11.00

MILLETS

EARLY FORTUNE (Red Proso)

A very early grain millet that matures in 60 to 70 days.

100 lbs. \$4.50

WHITE PROSO

A hardy and disease resistant strain.

100 lbs. \$4.50

GERMAN MILLET

Has long heads, stems are small, luscious, and highly palatable. This is a variety very valuable for hay and forage.

100 lbs. \$7.50

SIBERIAN HAY MILLET

A hardy, drought resistant variety that matures in 65 to 70 days. The forage is quite palatable, and the seed has a high feeding value.

100 lbs. \$5.00

BLACK HAWK

An early variety that will mature from 5 to 7 days earlier than most varieties.

Per Bu. \$4.50

WINTER OR HAIRY VETCH

A hardy winter annual legume which can be planted in the fall or in the spring. Makes a good companion crop when planted with fall rye in the spring for pasture or hay.

100 lbs. \$19.00

RELIANCE SORGHUM

An early high yielding, new variety of grain Sorghum, released from the S. D. Experiment Station. Reliance is a combine type, has a larger seed than Norghum and stands longer after a killing frost.

100 lbs. (Certified) \$6.50
100 lbs. (Uncertified) \$5.50

SUDAN GRASSES

SWEET SUDAN GRASS (Texas)

It is leafier, higher yielding, more disease resistant, and more vigorous in growth than common sudan.

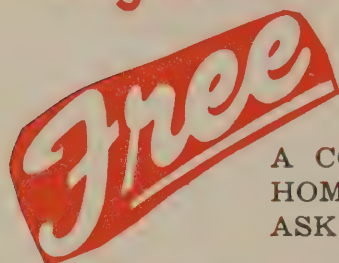

100 lbs. \$8.50

PIPER SUDAN

This variety has good forage yielding ability and is very low in hydrocyanic acid content. It has good disease resistance and has the palatability characteristic of Sweet Sudan grass. It produces good regrowth after pasturing, but somewhat later in maturity.

100 lbs. \$8.50

LIMITED WARRANTY CLAUSE—Our Company warrants to the extent of the purchase price that seeds or bulbs sold are as described on the container within recognized tolerances. Seller gives no other or further Warranty, express or implied.

ALL PRICES SHOWN IN SEED ANNUAL ARE SUBJECT TO CHANGE WITHOUT NOTICE.

Typical laying house
in the Cooper complete
Package Layer Program.

NEW COOPER "Package" Layer Program

designed specifically for the "FARM FAMILY"

Now, for the first time, the average "Family Farm" can have the opportunity to use the same methods of egg production used by the big commercial egg factories. After months of research and testing of material and methods, the O. A. Cooper Company is making available a complete set-up for the economical production of high quality eggs with a minimum of labor.

In the new Cooper Package Layer Program you have a choice of:

Caged or Slat Floor Laying Houses with a capacity of 1200 and 1600 birds. Each house is fully insulated and is complete with lights, ventilating system, feeders, automatic waterers, and cages or Roll-A-Way nests.

As optional equipment you have a choice of egg coolers, bulk feed bins, automatic or manual foggers, a complete electrical kit, and building extensions.

**EVERYTHING YOU NEED
TO ECONOMICALLY IN-
CREASE EGG QUANTITY
and QUALITY—IN ONE
PACKAGE!**

EASILY FINANCED—The house, all equipment, recommended feed and even the pullets may be financed through the O. A. Cooper Co. **LOW INTEREST RATES** —SEMI-ANNUAL or QUARTERLY PAYMENTS.

Take advantage of this chance to increase your egg profits! For more information...mail this coupon, today...
